Compaction Plates

A range of high quality Vibrating Plate Compactors, offering outstanding performance, low maintenance costs and extended life expectancy.

Offer a unique combination of frequency, centrifugal force, amplitude and mass for increased productivity, reduced maintenance and extended life

All models powered by genuine Honda petrol engines

Heavy duty build quality using quality components

Rugged, hard hitting exciters with heavy duty housing, using maximum surface area for heat dissipation and strength

Fast travel and high productivity

Ideal for confined work areas such as pavements, kerbs, gutters and narrow trenches - plate widths between 14" (355mm) and 23" (585mm)
